

## James Cook University eMerge Media Space Map

Building DA 300  
James Cook Drive  
Douglas, Townsville

*Mousai: 21st Century Muse* by Angeline Ignatius explores the connections of art and mysticism through the metamorphosis from the classical Greek muses to the modern day art world. Whilst still upholding the fundamental roots of the muse, she has adapted these muses to reflect the current art ideas, trends, technology and concepts of today. Using the research of the African, South Pacific and American Indian tribes and infusing her own style she presents an array of original totemic style images for inspiration in the present day.

This exhibition fulfills the components of the Bachelor of New Media Arts Honours.
